CHAPTER 5 - ADAPTIVE ASSESSMENT AND MANAGEMENT OF RIVERINE ECOSYSTEMS: THE CROCODILE/ELANDS RIVER CASE STUDY

DJ Roux, CJ Kleynhans, C Thirion, L Hill, JS Engelbrecht, AR Deacon and NP Kemper

TABLE OF CONTENTS

5.1 INTRODUCTION ............................................. 76

5.2 ADAPTIVE ENVIRONMENTAL ASSESSMENT AND MANAGEMENT . . . 77
5.2.1 Theory of Adaptive Environmental Assessment and Management . . . 77
5.2.2 A Procedure for Adaptive Assessment and Management of Aquatic Ecosystems ................................................. 78

5.3 STUDY AREA AND BIOLOGICAL INDICES USED .................. 79
5.3.1 Study Area .................................................. 79
5.3.2 Biological Indices Used ........................................ 81

5.4 ECOSYSTEM ASSESSMENT ................................... 82
5.4.1 Classify Ecological Integrity ..................................... 83
5.4.2 Establish Ecological State and Trends ............................ 88

5.5 ECOSYSTEM MANAGEMENT .................................. 90
5.5.1 Set Ecosystem Management Goals and Quality Objectives ............ 91
5.5.2 Formulate and Implement Management Plans ...................... 95

5.6 DISCUSSION ............................................... 101

5.7 ACKNOWLEDGEMENTS ..................................... 104

5.8 REFERENCES ............................................. 105
